CONTENTS FOR VOLUME 20, 1988

N. Philip Ashmole and Myrtle J. Ashmole	1–12	Insect Dispersal on Tenerife, Canary Islands: High Altitude Fallout and Seaward Drift
R. Lee Lyman	13–23	Significance for Wildlife Management of the Late Quaternary Biogeography of Mountain Goats (*Oreamnos americanus*) in the Pacific Northwest, U.S.A.
Curtis A. Meininger and Peter D. Spatt	24–30	Variations of Tardigrade Assemblages in Dust-impacted Arctic Mosses
Anne C. Messer	31–39	Regional Variations in Rates of Pedogenesis and the Influence of Climatic Factors on Moraine Chronosequences, Southern Norway
B. H. Luckman	40–54	Dating the Moraines and Recession of Athabasca and Dome Glacires, Alberta, Canada
Robert G. Goodwin	55–69	Holocene Glaciolacustrine Sedimentation in Muir Inlet and Ice Advance in Glacier Bay, Alaska, U.S.A.
E. Perfect, R. D. Miller, and B. Burton	70–75	Frost Upheaval of Overwintering Plants: A Quantitative Field Study of the Displacement Process
Kenneth M. Hinkel	76–85	Frost Mounds Formed by Degradation of Slope Mountain, Alaska, U.S.A.
M. G. G. De Jong and J. K. Kwadijk	86–96	Fossil Rock Glaciers in Central Voralberg, Austria
Michael J. Clark and Matti Seppälä	97–105	Slushflows in a Subarctic Environment, Kilpisjärvi, Finnish Lapland
W. O. van der Knaap	106–116	A Pollen Diagram from Brøggerhalvøya, Spitsbergen: Changes in Vegetation and Environment from ca. 4000 to ca. 800 BP
J. G. Chmeilewski and C. C. Chinnappa	117–124	Taxonomic Notes and Chromosome Numbers in *Antennaria* Gaertner (Asteraceae: Inuleae) from Arctic North America
Book Reviews	125–132	*Whales, Ice and Men: The History of Whaling in the Western Arctic:* John R. Bockstoce. *Stef: A Biography of Vilhjalmur Stefansson, Canadian Arctic Explorer:* William R. Hunt. *Pipelines and Permafrost: Science in a Cold Climate:* Peter J. Williams. *The Polar Shelf: The Saga of Canada's Arctic Scientists:* Michael Foster and Carol Marino. *Education, Research, Information Systems and the North:* W. Peter Adams (ed.). *Field Research on Axel Heiberg Island, N.W.T., Canada: Bibliographies and Data Reports:* Peter Adams (ed.). *High Altitude Tropical Biogeography:* Francois Vuillemier and Maximina Monasterio (eds.). *Antarctic Science.* D. W. H. Walton (ed.).
D. M. Lawler	137–159	Environmental Limits of Needle Ice: A Global Survey
Ole Humlum	160–178	Rock Glacier Appearance Level and Rock Glacier Initiation Line Altitude: A Methodological Approach to the Study of Rock Glaciers

Masamu Aniya	179–187	Glacier Inventory for the Northern Patagonia Icefield, Chile, and Variations 1944/45 to 1985/86
Richard G. Reider, Gary A. Huckleberry, and George C. Frison	188–198	Soil Evidence for Postglacial Forest-Grassland Fluctuations in the Absaroka Mountains of Northwestern Wyoming, U.S.A.
Peter A. Scott, David C. Fayle, Catherine V. Bentley, and Roger I. C. Hansell	199–211	Large-scale Changes in Atmospheric Circulation Interpreted from Patterns of Tree Growth at Churchill, Manitoba, Canada
John D. Jacobs and Lorraine D. Grondin	212–219	The Influence of an Arctic Large-lakes System on Mesoclimate in South-central Baffin Island, N.W.T., Canada
P. Marsh and S. C. Bigras	220–229	Evaporation from Mackenzie Delta Lakes, N.W.T., Canada
Stephen H. Roxburgh, J. Bastow Wilson, and Alan F. Mark	230–236	Succession after Disturbance of a New Zealand High-Alpine Cushionfield
John R. Spence and William C. Mahaney	237–242	Growth and Ecology of *Rhizocarpon* section *Rhizocarpon* on Mount Kenya, East Africa
Steven L. Forman	243–253	The Solar Resetting of Thermoluminescence of Sediments in a Glacier-dominated Fiord Environment in Spitsbergen: Geochronologic Implications
In Memoriam	254	John H. Mercer, 1922–1987
Book Reviews	255–260	*Glacio-fluvial Sediment Transfer: An Alpine Perspective:* A. M. Gurnell and M. J. Clark. *Remote Sensing Applications in Meteorology and Climatology:* R. A. Vaughan (ed.). *Antarctic Treaty System: An Assessment:* Polar Research Board (ed.). *The Antarctic Treaty Regime: Law, Environment, and Resources:* G. D. Triggs (ed.). *Arctic Air Pollution:* B. Stonehouse (ed.). *Quaternary Glaciations in the Northern Hemisphere:* V. Sibrava, D. Q. Bowen, and G. M. Richmond (eds.).
David Jon Furbish	265–272	The Influence of Ice Layers on the Travel Time of Meltwater through a Snowpack
Darrell S. Kaufman and Parker E. Calkin	273–284	Morphometric Analysis of Pleistocene Glacial Deposits in the Kigluaik Mountains, Northwestern Alaska
James B. Benedict	285–291	Techniques in Lichenometry: Identifying the Yellow Rhizocarpons
J. Poelt	292–298	*Rhizocarpon* Ram. em. Th. Fr. subgen. *Rhizocarpon* in Europe
H. Evardsen, A. Elvebakk, D. O. Øvstedal, L. Prøsch-Danielsen J. T. Schwenke, and T. Sveistrup	299–309	A Peat-producing *Empetrum* Heath in Coastal North Norway
Rolf W. Mathewes	310–324	Pollen Spectra from Lake Surface Sediments in the Swiss Alps
Jeet Ram, S. P. Singh, and J. S. Singh	325–332	Community Level Phenology of Grassland above Treeline in Central Himalaya, India

William A. Pfitsch	333–341	Microenvironment and the Distribution of Two Species of *Draba* (Brassicaceae) in a Venezuelan Paramo
U. Matthes-Sears, W. C. Matthes-Sears, S. J. Hastings, and W. C. Oechel	342–351	The Effects of Topography and Nutrient Status on the Biomass, Vegetative Characteristics, and Gas Exchange of Two Deciduous Shrubs on an Arctic Tundra Slope
J. K. Armstrong, K. Williams, L. F. Huenneke, and H. A. Mooney	352–357	Topographic Position Effects on Growth Depression of California Sierra Nevada Pines During the 1982–83 El Niño
Ronald M. Lanner	358–362	Dependence of Great Basin Bristlecone Pine on Clark's Nutcracker for Regeneration at High Elevaitons
Maria Pasitschniak-Arts, Mark E. Taylor, and L. David Mech	363–365	Note on Skeletal Injuries in an Adult Arctic Wolf
Correspondence		
Donald S. Lemmen, D. A. J. Evans, and John England	366–368	Discussion of "Glaciers and the Morphology and Structure of the Milne Ice Shelf, Ellesmere Island, N.W.T., Canada"
Martin O. Jeffries	369–371	Reply
Book Reviews	373–379	*Colorado Flora: Western Slope:* W. A. Weber. *Geomorphic Systems of North America:* W. L. Graf. *Fjords: Processes and Products:* J. P. M. Syvitski, D. C. Burrell, and J. M. Skei. *Modelling Snowmelt-induced Processes:* E. M. Morris. *Very Slow Flows of Solids:* L. A. Lliboutry. *The Greenland Caribou:* M. Meldgaard. *On the Track of Ice Age Mammals:* A. J. Sutcliffe. *Rock Glaciers:* J. Giardino, J. F. Shroder, and J. D. Vitek.
K. R. Briffa, P. D. Jones, J. R. Pilcher, and M. K. Hughes	385–394	Reconstructing Summer Temperatures in Northern Fennoscandinavia back to A.D. 1700 Using Tree-ring Data from Scots Pine
Robert Gilbert and Cheryl McKenna Neuman	395–403	Occurrence and Potential Significance of Warm Weather during Winter in the Eastern Canadian Arctic
Fred B. Wood	404–413	Global Alpine Glacier Trends, 1960s to 1980s
Masamu Aniya, Gino Casassa, and Renji Naruse	414–421	Morphology, Surface Characteristics, and Flow Velocity of Soler Glacier, Patagonia
Norikazu Matsuoka, Kiichi Moriwaki, and Kazuomi Hirakawa	422–428	Diurnal Frost-heave activity in the Sør-Rondane Mountains, Antarctica
Neil H. Berg	429–447	Mountain-top Riming at Sites in California and Nevada, U.S.A.
R. Scott Anderson and Owen K. Davis	448–460	Contemporary Pollen Rain across the Central Sierra Nevada, California, U.S.A.: Relationship to Modern Vegetation Types
H. P. Stutz and J. B. Mitton	461–465	Genetic Variation in Engelmann Spruce Associated with Variation in Soil Moisture
S. D. Sparrow, M. Redlin, and Elena B. Sparrow	466–472	Comparison of Methods for Extracting Adenosine Triphosphate from Three High-latitude Soils

P. W. Birkeland and R. M. Burke 473–484 Soil Catena Chronosequences on Eastern Sierra Nevada Moraines, California, U.S.A.

M. Iggy Litaor 485–491 Soil Solution Chemistry in an Alpine Watershed, Front Range, Colorado

Diane McKnight and Kenneth E. Bencala 492–500 Diel Variations in Iron Chemistry in an Acidic Stream in the Colorado Rocky Mountains, U.S.A.

Book Reviews 501–504 *Chemistry of Soil Solutions:* Adel M. Elprince (ed.). *Life in the Cold:* P. J. Marchand. *Overland to Starvation Cove:* H. Klutschak. *Vegeationsentwicklungen auf Skipistenplanierungen in der alpinen Stufe bei Davos:* E. Meisterhans. *Auswirkungen des Skibetriebes auf subalpine Heuwiesen bei Davos:* H. Meisterhans-Kronenberg. *Periglacial Processes and Landforms in Britain and Ireland:* John Boardman (ed.). *Sea-level Research:* O. van der Plassche (ed.). *Sea Surface Studies:* R. J. N. Devoy (ed.). *Responding to Changes in Sea Level:* National Research Council.

Contents and Index for Vol. 20, 1988 505–511

SUBJECT AND AUTHOR INDEX FOR VOLUME 20, 1988

Acid deposition, 485–491
Adenosine triphosphate extraction, 466–472
Aeolian habitats, 1–12
Alaska: Dust-impacted mosses, 24–30; Frost mounds, 76–85; Glacier Bay glacier advance, 55–69; Pleistocene glacial deposits, 273–284
Alpine: Disturbance, 230–236; Himalayan grassland phenology, 325–332; Mammalian fauna, 12–23; Soil solution chemistry, 485–491; Stream chemistry, 492–500
Alps: Pollen spectra, 310–324
Altithermal, 188–198
Anderson, R. S. and Davis, O. K. (Contemporary pollen rain across the central Sierra Nevada, California: Relationship to modern vegetation types), 448–460
Aniya, M. (Glacier inventory for the Northern Patagonia Icefield, Chile, and variations 1944/45 to 1985/86), 179–187
Aniya, M., Casassa, G., and Naruse, R. (Morphology, surface characteristics, and flow velocity of Soler Glacier, Patagonia), 414–421
Antarctica: Frost heave, 422–428
Antennaria: Chromosome numbers and taxonomy, 117–124
Arctic: Chromosome numbers, 117–134; Dust-impacted mosses, 24–30; Ice shelves, 366–371; Mesoclimate, 212–219; Rock glaciers, 160–178; Slushflow, 97–105; Soil, 466–472; Spitsbergen pollen diagram, 106–116; Taxonomy, 117–124; Tundra deciduous shrubs, 343–351; Weather, 395–403; Wolf skeletal injuries, 360–365
Armstrong, J. K., Williams, K., Huenneke, L. F., and Mooney, H. A. (Topographic effects on growth depression of California Sierra Nevada pines during the 1982–83 El Niño), 352–357
Ashmole, M. J. *See* Ashmole, N. P. and Ashmole, M. J.
Ashmole, N. P. and Ashmole, M. J. (Insect dispersal on Tenerife, Canary Islands: High altitude fallout and seaward drift), 1–12
Asteraceae: Chromosome numbers and taxonomy, 117–124
Atmospheric circulation patterns, 199–211
Austria: Rock glaciers, 86–96
Avalanche: Slush, 97–105

Benedict, J. B. (Techniques in lichenometry: Identifying the yellow Rhizocarpons), 285–291
Bentley, C. V. *See* Scott, P. A., et al.
Berg, N. H. (Mountain-top riming at sites in California and Nevada, U.S.A.), 429–447
Bigras, S. C. *See* Marsh, P. and Bigras, S. C.
Biogeography: Quaternary, 12–23
Biological fallout, 1–12
Biomass, 343–351
Birkeland, P. W. and Burke, R. M. (Soil catena chronosequences on eastern Sierra Nevada moraines, California, U.S.A.), 473–484
Book Reviews
Antarctic Science. D. W. H. Walton (ed.). *G. Weller,* 130–131
Antarctic Treaty System: An Assessment. Polar Research Board (ed.). *W. S. Benninghoff,* 257–258
Arctic Air Pollution. B. Stonehouse (ed.). *G. B. Wiersma,* 260
Auswirkungen des Skibetriebes auf subalpine Heuwiesen bei Davos. H. Meisterhans-Kronenberg. *J. Major,* 502–503
Chemistry of Soil Solutions. A. M. Elprince (ed.). *M. I. Litaor,* 501
Colorado Flora: Western Slope. W. A. Weber. *J. R. Spence,* 373–374
Detection and Classification of Ice. E. O. Lewis et al. *W. F. Weeks,* 129–130
Education, Research, Information Systems and the North. W. P. Adams (ed.). *M. Andrews,* 128
Field Research on Axel Heiberg Island, N.W.T., Canada: Bibliographies and Data Reports. P. Adams (ed.). *M. Andrews,* 128–129
Fiords: Processes and Products. J. P. M. Syvitski et al. *J. T. Andrews,* 375
Geomorphic Systems of North America. W. L. Graf (ed.). *J. B. Bird,* 374–375

P. W. Birkeland and R. M. Burke 473–484 Soil Catena Chronosequences on Eastern Sierra Nevada Moraines, California, U.S.A.

M. Iggy Litaor 485–491 Soil Solution Chemistry in an Alpine Watershed, Front Range, Colorado

Diane McKnight and Kenneth E. Bencala 492–500 Diel Variations in Iron Chemistry in an Acidic Stream in the Colorado Rocky Mountains, U.S.A.

Book Reviews 501–504 *Chemistry of Soil Solutions:* Adel M. Elprince (ed.). *Life in the Cold:* P. J. Marchand. *Overland to Starvation Cove:* H. Klutschak. *Vegeationsentwicklungen auf Skipistenplanierungen in der alpinen Stufe bei Davos:* E. Meisterhans. *Auswirkungen des Skibetriebes auf subalpine Heuwiesen bei Davos:* H. Meisterhans-Kronenberg. *Periglacial Processes and Landforms in Britain and Ireland:* John Boardman (ed.). *Sea-level Research:* O. van der Plassche (ed.). *Sea Surface Studies:* R. J. N. Devoy (ed.). *Responding to Changes in Sea Level:* National Research Council.

Contents and Index for Vol. 20, 1988 505–511

SUBJECT AND AUTHOR INDEX FOR VOLUME 20, 1988

Acid deposition, 485–491
Adenosine triphosphate extraction, 466–472
Aeolian habitats, 1–12
Alaska: Dust-impacted mosses, 24–30; Frost mounds, 76–85; Glacier Bay glacier advance, 55–69; Pleistocene glacial deposits, 273–284
Alpine: Disturbance, 230–236; Himalayan grassland phenology, 325–332; Mammalian fauna, 12–23; Soil solution chemistry, 485–491; Stream chemistry, 492–500
Alps: Pollen spectra, 310–324
Altithermal, 188–198
Anderson, R. S. and Davis, O. K. (Contemporary pollen rain across the central Sierra Nevada, California: Relationship to modern vegetation types), 448–460

Fiords: Processes and Products. J. P. M. Syvitski et al. *J. T. Andrews,* 375
Geomorphic Systems of North America. W. L. Graf (ed.). *J. B. Bird,* 374–375

Glacio-fluvial Sediment Transfer: An Alpine Perspective. A. M. Gurnell and M. J. Clark (eds.). *O. Slaymaker,* 255–256
High Altitude Tropical Biogeography. F. Vuillemier and M. Monasterio. *V. Markgraf,* 129
Life in the Cold: An Introduction to Winter Ecology. P. J. Marchand. *B. A. Wunder,* 501–502
Modelling Snowmelt-induced Processes. E. M. Morris (ed.). *G. J. Young,* 376
On the Track of Ice Age Mammals. A. J. Sutcliffe. *J. T. Hollin,* 378
Overland to Starvation Cove: With the Inuit in Search of Franklin. H. Klutschak. *R. S. Bradley,* 502
Pipelines and Permafrost: Science in a Cold Climate. P. J. Williams. *D. M. Gates,* 127
Quaternary Glaciations in the Northern Hemisphere. V. Sibrava et al. (eds.). *S. L. Forman,* 260
Remote Sensing Applications in Meteorology and Climatology. R. A. Vaughan (ed.). *R. G. Crane,* 256–257
Rock Glaciers. J. R. Giardino et al. (eds.). *O. Humlum,* 378–379
Stef: A Biography of Vilhjalmur Stefansson, Canadian Arctic Explorer. W. R. Hunt. *W. Barr,* 125–127
The Antarctic Treaty Regime, Law, Environment and Resources. G. D. Triggs (ed.). *E. D. Rudolph,* 259
The Greenland Caribou—Zoogeography, Taxonomy, and Population Dynamics. M. Meldgaard. *J. P. Kelsall,* 377–378
The Polar Shelf: The Saga of Canada's Arctic Scientists. M. Foster and Carol Marino. *J. T. Andrews,* 128
Vegetationsentwicklungen auf Skipistenplanierungen in der alpinen Stufe bei Davos. E. Meisterhans. *J. Major,* 502–503
Very Slow Flows of Solids: Basics of Modeling in Geodynamics and Geophysics. L. A. Lliboutry. *W. T. Pfeffer,* 376–377
Whales, Ice and Men: The History of Whaling in the Western Arctic. J. R. Bockstoce. *W. Barr,* 125
Briffa, K. R., Jones, P. D., Pilcher, J. R., and Hughes, M. K. (Reconstructing summer temperatures in northern Fennoscandinavia back to A.D. 1700 using tree-ring data from Scots pine), 385–394
Bryophytes: Dust-impacted, 24–30
Burke, R. M. *See* Birkeland, P. W. and Burke, R. M.
Burton, B. *See* Perfect, E., et al.

Calkin, P. E. *See* Kaufman, D. S. and Calkin, P. E.
Canada: Dendroclimatology, 199–211; Glacier fluctuations, 40–54; Mackenzie Delta lakes, 220–229
Canary Islands: Insect dispersal, 1–12
Casassa, G. *See* Aniya, M., et al.
Chmeilewski, J. G. and Chinnappa, C. C. (Taxonomic notes and chromosome numbers in *Antennaria* Gaertner [Asteraceae: Inuleae] from arctic North America), 117–124
Chromosome numbers: *Antennaria,* 117–124
Clark, M. J. and Seppälä, M. (Slushflows in a subarctic environment, Kilpisjarvi, Finnish Lapland), 97–105
Clark's nutcracker, 358–362
Climate: Baffin Island, 212–219
Closed-system freezing, 76–85
Colonization, 237–242
Colorado: Alpine soil, 485–491; Genetic variation in spruce, 461–465; Streams, 492–500

Dating methods: Dendrogeomorphic, 40–54; Geomorphic, 86–96; Photographic, 40–54; Relative-age dating, 273–284; Thermoluminescence, 243–253
Davis, O. K. *See* Anderson, R. S. and Davis, O. K.
De Jong, M. G. G. and Kwadijk, J. K. (Fossil rock glaciers in Central Vorarlberg, Austria), 86–96
Dendrochronology: Canadian Rockies, 40–54; Canada, 199–211; Fennoscandinavia, 385–394
Disturbance, 230–236
Draba, 333–341
Dust-impacted arctic mosses, 24–30

East Africa: Lichenometry, 237–242
Ecology: Arctic tundra, 332–351; Bristlecone pine, 358–362; Growth depression, 353–357; *Rhizocarpon* on Mt. Kenya, 237–242; Tardigade assemblages, 24–30; Venezuelan paramo, 333–341
El Niño, 353–357
Elvebakk, A. *See* Evardsen, H., et al.
England, J. *See* Lemmen, D. S., et al.
Entomology: Insect dispersal, 1–12
Equilibrium line altitude, 160–178
Europe: Key to *Rhizocarpon,* 292–298
Evans, D. J. A. *See* Lemmen, D. S., et al.
Evaporation: Arctic lakes, 220–229
Evardsen, H., Elvebakk, A., Øvstedal, D. O., Prøsch-Danielsen, L., Schwenke, J. T., and Sveistrup, T. (A peat-producing *Empetrum* heath in coastal North Norway), 299–309

Fayle, D. C. *See* Scott, P. A., et al.
Fennoscandinavia: Summer temperature, 385–394
Finland: Slushflows, 97–105
Forest soil, 188–198
Forman, S. L. (The solar resetting of thermoluminescence of sediments in a glacier-dominated fiord environment in Spitsbergen: Geochronologic implications), 243–253
Frison, G. C. *See* Reider, R. G., et al.
Frost action, 137–159
Frost damage, 70–75
Frost heave, 422–428
Frost heaving, 70–75
Frost mounds, 76–85
Furbish, D. J. (The influence of ice layers on the travel time of meltwater through a snowpack), 265–272

Genetic variation in spruce, 461–465
Geochronology, 243–253
Geomorphology: Rock glacier, 86–96
Gilbert, R. and McKenna Neuman, C. (Occurrence and potential significance of warm weather during winter in the eastern Canadian Arctic), 395–403
Glacial geology: Morphology of moraines, 273–284
Glacier advance, 55–69
Glacier Bay, Alaska, 55–69
Glacier fluctuations: Canadian Rockies, 40–54
Glacier foreland, 31–39
Glacier inventory: Patagonia Icefield, 179–187
Glacier morphology, 414–421
Glacier regimes, 404–413
Glacier variations: Patagonia Icefield, 179–187
Glaciology: Alpine glacier trends, 404–413; Glacier flow velocity, 414–421; Glacier morphology, 414–421; Ice shelf morphology, 366–371
Goodwin, R. G. (Holocene glaciolacustrine sedimentation in Muir Inlet and ice advance in Glacier Bay, Alaska, U.S.A.), 55–69
Grassland soil, 188–198

Greenland: Rock glaciers, 160–178
Grondin, L. D. *See* Jacobs, J. D. and Grondin, L. D.
Ground ice, 76–85
Growth depression, 353–357

Hansell, R. I. C. *See* Scott, P. A., et al.
Hastings, S. J. *See* Matthes-Sears, U., et al.
Himalaya: Phenology, 325–332
Hinkel, K. M. (Frost mounds formed by degradation at Slope Mountain, Alaska, U.S.A.), 76–85
Hirakawa, K. *See* Matsuoka, M., et al.
Hollin, J. T. (In Memoriam: John H. Mercer, 1922–1987), 254
Holocene: Glaciolacustrine sedimentation, 55–69; Spitsbergen pollen diagram, 106–116
Huckleberry, G. A. *See* Reider, R. G., et al.
Huenneke, L. F. *See* Armstrong, J. K., et al.
Hughes, M. K. *See* Briffa, K. R., et al.
Humlum, O. (Rock glacier appearances level and rock glacier initiation line altitude: A methodological approach to the study of rock glaciers), 160–178
Hydrology: Arctic lakes, 212–219, 220–229; Arctic sandur, 395–403; Meltwater through snowpack, 265–272; Slushflow, 97–105

Ice layers, 265–272
Ice lensing, 70–75
Ice shelf morphology, 366–371
Ice: Needle-ice observations, 137–159
Icing: Mountain-top riming, 429–447
In Memoriam: John H. Mercer, 1922–1987, 254
India: Himalaya phenology, 325–332
Insect dispersal, 1–12
Iron chemistry of stream, 492–500
